A SLE is an interaction between a doctor and a trainer which leads to immediate feedback and reflective learning. They are designed to help doctors develop and improve their clinical and professional practice and to set targets for future achievements.

SLEs aim to:

- support the development of proficiency in the chosen skill, procedure or event
- provide an opportunity to demonstrate improvement/progression
- highlight achievements and areas of excellence
- provide immediate feedback and suggest areas for further development
- demonstrate engagement in the educational process

You should use this section to plan how you intend to acquire the knowledge, develop the competences and demonstrate the outcomes, which are required for satisfactory completion of your training. This section will also allow you to record evidence that you have achieved and maintained each outcome.

Curriculum Information

The FP Curriculum 2012 Resource aims to assist foundation doctors in improving their knowledge and understanding of the generic and clinical topics as set out in the Foundation Programme Curriculum 2012; use of the document by educational supervisors, clinical supervisors and other key members involved in delivering foundation training is also encouraged.

You can link a competency by clicking on Link button.
